# CONTRADICTION BOURBON

A BLEND OF STRAIGHT BOURBON WHISKIES

A bourbon as diverse and smooth as the people who make it. Bottled at 92 proof because, well, it just tastes better that way. When you take that first sip, you'll taste a blend of straight bourbon whiskies from our own backyard in West Virginia, and yes... even some from Tennessee and Indiana. It's an unlikely combination of mashbills that works incredibly well whether you're making cocktails or drinking it neat.
